

Shrikant Tulshigar

Java Backend Developer | Spring Boot | Microservices | Kafka | Docker | Kubernetes | AWS

+91 70588 54340 ◇ shrikanttulshigar01@gmail.com ◇ Pune, Maharashtra ◇ [LinkedIn Profile](#)

SUMMARY

Results-driven **Java Backend Developer** with **2.6+ years of experience** in developing scalable enterprise applications using **Java, Spring Boot, Microservices, REST APIs, SQL, Kafka, Docker, Kubernetes, AWS, and CI/CD**. Proven expertise in backend development, API integration, cloud deployments, production support, and performance optimization. Strong track record of improving system reliability, deployment efficiency, and code quality in Agile environments.

SKILLS

Programming Languages: Java, SQL, Python

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate

Backend & APIs: REST APIs, Microservices Architecture, JSON, JAX-RS, API Lifecycle Management, API Integration, Distributed Systems

Databases: MySQL, SQL Server, Relational Database Design, Query Optimization

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, CI/CD Pipelines, PCF, GitHub Actions

Messaging & Monitoring: Kafka, Splunk, IBM API Connect, Eureka

Tools: Git, GitHub, Postman, Swagger, IntelliJ IDEA, Eclipse

Testing: JUnit, Mockito, TDD, Unit Testing, Integration Testing

AI-Assisted Development: GitHub Copilot, AI Code Reviews, AI PR Reviews, Prompt Engineering, Automated Documentation

EXPERIENCE

Software Engineer

Cognizant

Sep '21 — Mar '24

- Developed **REST APIs** using **Java 11/17** and **Spring Boot** supporting **50+ enterprise integrations**.
- Built scalable **microservices architecture**, improving maintainability and reliability.
- Improved API data mapping accuracy by **15%** through request/response optimization.
- Implemented **CI/CD pipelines using Jenkins**, reducing deployment effort by **40%**.
- Achieved **90%+ code coverage** using **JUnit & Mockito**, reducing defects by **20%**.
- Used **Splunk** for monitoring, resolving production issues **30% faster**.
- Worked with **Docker, Kubernetes, AWS**, and **Kafka-based integration workflows**.
- Collaborated in Agile teams for sprint delivery and release management.

Web Development Intern

Internshala

May '20 — Jun '20

- Developed web application using **PHP, SQL, HTML, CSS** with backend modules.
- Optimized SQL queries improving retrieval speed by **15%**.
- Built CRUD functionality and backend validations for stable operations.

PROJECTS

Predicting Trends of Quality-Oriented Jobs | Python, Django, Machine Learning

Jan '21 — Apr '21

- Built backend analytics platform processing **10,000+ data points**.
- Developed APIs and pipelines improving classification accuracy by **22%**.
- Implemented **KNN model** with **85% precision**.
- Reduced response time by **30%** through backend optimization.

EDUCATION

Bachelor of Engineering in Computer Science, Walchand Institute of Technology, Solapur Jul '17 — May '21
